

Logic Room

`::upskill (javascript)::`

The image features a dark blue gradient background. In the four corners, there are decorative elements made of isometric cubes. The cubes are outlined in a lighter blue color and are arranged in a way that creates a 3D effect, with some cubes appearing to be stacked on top of others. The cubes are more densely packed in the top corners and more spread out in the bottom corners.

“Give me six hours to chop **down a tree** and I will spend the first 4 **sharpening my axe**” – Abraham Lincoln

What is Upskill?

'Upskill' is training and real-time project mentoring for your developers. We provide open and honest guidance on how to apply pragmatic Test Driven Development along with robust Software Architecture which is designed to scale.

Leveraging the power of web programming languages we provide expert training so you can create re-usable, flexible and cross platform code that work in any environment from mobile to microservices!

Upskill will provide help your team with

- **Project Structure** – we help you set up your projects so that they are testable, deployable and cross platform
- **Software Architecture** – we help you embrace a culture of shareable and cross platform code with dependency management built in from the start
- **Test Automation** – we help you integrate Test Driven Development into your daily working habits, we show you how to do TDD so it's not a chore!
- **Framework Separation** – we continuously help you separate out your business logic from low level framework details

What Technologies Do We Teach?

Languages : JavaScript and Typescript

We help you leverage ES7 and the ever more important type safety features of Typescript

Frameworks : React, Angular and Node and Redux

Why not build your entire ecosystem from the JavaScript ecosystem of technology? We help to guide you on a path to JavaScript framework mastery!

Devices : Web, Mobile, Api and Desktop

Whether you want to build native mobile or IOT we show you how to apply agile craftsmanship to any platform!
